PROFESSIONAL SUMMARY

Motivated Computer Science graduate with a strong foundation in Java programming, SQL, and database management. Interested in developing reliable software applications and solving real-world problems. Eager to apply technical knowledge, learn new technologies, and grow as a Java Developer.

EDUCATION

Godavari Institute of Engineering and Technology, Rajahmundry 2022 – 2026
Bachelor of Technology in Computer Science and Engineering *CGPA: 8.55*

EXPERIENCE

Codegnan IT Solutions Jun. 2025 – Present
Java Full Stack Trainee *Hyderabad, Telangana*

- Develop Java applications using Core Java, JDBC, Spring Boot, Hibernate, and MySQL as part of technical training.
- Build responsive web interfaces using HTML, CSS, JavaScript, and Angular.
- Practice REST API development and MVC architecture for structured web application development.
- Use Git, Maven, Eclipse, and Postman for source code management, project builds, and API testing.
- Write SQL queries and implement database operations using JDBC and object-oriented programming principles.

APSCHE - SmartBridge Jun. 2024 – Feb. 2025
AWS Cloud Computing Intern *Rajahmundry, Andhra Pradesh*

- Hosted static web applications on Amazon S3 and integrated frontend components with AWS services.
- Developed serverless backend workflows using AWS Lambda and API Gateway.
- Used Amazon DynamoDB for data storage and configured IAM roles and policies for secure access.
- Tested application workflows and practiced cloud deployment, storage management, and frontend-backend integration.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python (Basics)
Frontend Technologies: HTML5, CSS3, JavaScript, React, Angular, Bootstrap, Next.js
Backend Technologies: Core Java, Advanced Java, JDBC, Servlets, JSP, Spring Boot, Hibernate, Node.js, Express.js
Databases: MySQL, SQL, MongoDB, Firebase
Developer Tools: Git, GitHub, Maven, Eclipse, VS Code, Postman
Cloud Technologies: AWS S3, Lambda, API Gateway, DynamoDB, IAM

PROJECTS

Student Management System – Java, JDBC, MySQL

- Developed a Java-based application to manage student records through Create, Read, Update, and Delete (CRUD) operations.
- Implemented all four CRUD operations using JDBC and MySQL to insert, retrieve, update, and delete student information.
- Used SQL queries and database connectivity to manage student records consistently.
- Applied object-oriented programming principles to organize application logic and improve maintainability.
- Source code: Add the direct GitHub repository URL before submitting the resume.

ComicCrafter – AI-Powered Comic Generation Platform

- Designed an AI-assisted comic creation system that transforms text prompts and storylines into comic content.
- Planned a content generation workflow covering story narratives, character dialogues, comic panel layouts, and AI-generated illustrations.
- Designed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Structured the project workflow to connect narrative generation, panel arrangement, and image synthesis.
- Source code: Add the direct GitHub repository URL before submitting the resume.

CERTIFICATIONS

- Information Technology Specialist - Java – Certiport, Pearson VUE | Issued: August 18, 2025.
- Database Management System – NPTEL.
- Programming in Java – NPTEL.
- AWS Certification – To be added after verifying the certificate details.

ACHIEVEMENTS AND ACTIVITIES

- Earned the Information Technology Specialist certification in Java from Certiport, Pearson VUE.
- Completed hands-on training in Java Full Stack development and gained practical exposure to AWS cloud services through an internship.
